Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities and each major fund of the City of New Bloomfield, Missouri (the "City"), as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities and each major fund of the City as of December 31, 2019, and the respective changes in financial position, and, where applicable, cash flows thereof, and the budgetary comparison for the General Fund, for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 – 13 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express on opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 8, 2020, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Certified Public Accountants

Boonville, Missouri

As management of the City of New Bloomfield, Missouri, we offer readers of the City's financial statement this narrative overview and analysis of the financial activities of the City for the fiscal year ended December 31, 2019. The City has implemented Governmental Accounting Standards Board GASB Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments.

Financial Highlights

- The assets of the City exceeded its liabilities at the close of the most recent fiscal year by \$1,663,374 (net position). Of this amount, \$358,874 (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors in accordance with the City's fund designation and fiscal policies.
- The City's total net position increased by \$57,419.
- As of the close of the current fiscal year, the City's governmental fund reported combined ending fund balances of \$168,235. Of this amount, \$2,794 is nonspendable, \$40,662 is restricted for debt service purposes, \$103,356 is restricted for other purposes, and \$21,423 is unassigned.
- At the end of the current fiscal year, the general fund had a fund balance of \$168,235.
- The City's bonds payable decreased \$57,301 due to scheduled payments.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements - The government-wide financial statements are designed to provide readers with the broad overview of the City's finances, in a manner similar to private-sector business.

The Statement of Net Position presents information on all of the City's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator to whether the financial position of the City is improving or deteriorating.

The Statement of Activities presents information showing how the City's net position changed during the fiscal year. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government and administration, public safety, transportation, cultural, parks and recreation and community development. The business-type activities of the City include Water and Wastewater operations. The government-wide financial statements can be found on pages 14 - 16 of this report.

Fund Financial Statements - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories - governmental fund and proprietary funds.

Governmental Fund - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of the governmental fund is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the Governmental Fund Balance Sheet and the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental fund and governmental activities.

The City maintains one governmental fund. Information is presented in the Governmental Fund Statement Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balance for the General Fund, which is considered to be a major fund. The basic governmental fund financial statements can be found on pages 17 - 20.

Proprietary Funds - The City maintains one type of proprietary fund. Enterprise Funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses the Enterprise Fund to account for its water, sewer and trash funds.

Proprietary Funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water, sewer and trash funds since they are considered to be major funds of the City. The basic proprietary fund financial statements can be found on pages 21 - 23 of this report.

Notes to the Financial Statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 24 - 40.

Governmental-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of government's financial position. In the case of the City of New Bloomfield, assets exceeded liabilities and deferred inflows of resources by \$1,663,374 as of December 31, 2019.

A significant portion of the City's net position (64%) is its investments in capital assets (e.g., land, buildings, equipment, improvements and construction in progress), less any debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide service to citizens; consequently these assets are not available for future spending. Although the City's investments in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

2019 NET POSITION

	Governmental			iness-Type			
	Ac	ctivities	<i>F</i>	Activities	Total

Total Net Position	\$	470,028	\$	1,135,927	\$	1,605,955	

As of December 31, 2019, the City is able to report positive balances in all three categories of net position for the government as a whole.

Analysis of the City's Operations - Overall the City had an increase in net position of \$57,419.

Governmental Activities: Governmental activities increased the net position by \$67,249.

<u>Business-Type Activities</u>: Net Position from business-type activities decreased by \$9,830 from \$1,135,927 to \$1,126,097. This decrease was primarily due to an excess of operating expenses over operating revenues.

The following tables provide a summary of the City's operations for year ended December 31, 2019 and 2018.

2019 CHANGES IN NET POSITION

	Governmental Activities		iness-Type Activities	Total

Financial Analysis of the Government's Fund

Governmental Fund - The focus of the City's governmental fund is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirement. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the City's governmental fund reported a combined ending fund balance of \$168,235.

In the General Fund, the City budgeted for an increase of \$66,098 in the fund balance. Due to actual revenues and expenditures being more than budgeted, the actual fund balance increase for fiscal year 2019 was \$66,826.

Proprietary Funds - The City's proprietary fund statements provide the same type of information found in the government-wide financial statements, but in more detail.

General Fund Budgetary Highlights - The City made one revision to the original appropriations approved by the City Council.

Capital Assets

The City of New Bloomfield's investment in capital assets for its governmental and business-type activities as of December 31, 2019 amounts to \$1,800,592 (net of accumulated depreciation). This investment in capital assets includes land, buildings, equipment, improvements and construction in progress.

2019 CAPITAL ASSETS AT YEAR-END NET OF ACCUMULATED DEPRECIATION

	Governmental		Bus	iness-Type	
	A	Activities		Activities	 Total

Net Capital Assets	\$	533,310	\$	1,379,894	\$ 1,913,204

Additional information on the City's capital assets can be found in Note VII on pages 35 and 36 of this report.

Debt Administration

At the end of the current fiscal year, the City of New Bloomfield had total bonded debt of \$739,970.

2019 Outstanding Debt at Year End Revenue Bonds, General Obligation Bonds and Deposits

	Governmental		Busi	ness-Type			
	A	Activities		ctivities	Total		
Revenue bonds	\$	-	\$	617,970	\$	617,970	
General obligation bonds		122,000		-		122,000	
Compensated absences		5,259		5,258		10,517	
Total	\$	127,259	\$	623,228	\$	750,487	

2018 Outstanding Debt at Year End Revenue Bonds, General Obligation Bonds and Deposits

	Gov	Governmental		ness-Type			
	A	Activities		ctivities	Total		
Revenue bonds	\$	-	\$	636,271	\$	636,271	
General obligation bonds		161,000		-		161,000	
Compensated absences		5,490		5,490		10,980	
Total	\$	166,490	\$	641,761	\$	808,251	

During the fiscal year, the City's total debt decreased by \$57,764 or 7%. The decrease was due to scheduled payments.

Additional information on the City of New Bloomfield's long-term debt can be found in Note XI and XII on pages 37 and 38 of this report.

Transfers

The City made no transfers in 2019.

The City made the following interfund transfers in 2018:

	2018		
Disbursing Fund	Receiving Fund	A	mount
Trash	Water	\$	10,735
Water	Trash		2,436

Economic Outlook

The Economic Outlook for 2020 for New Bloomfield, Missouri is hopeful for a bright future. The current Infrastructure of the town is solid and fully supports our churches, schools, businesses and population however, we need to continue working on our infrastructure so that it does not fall into a state of disrepair. We are poised for sustainable growth in both population and business opportunities. Several new homes are being built and two new businesses are scheduled to open in late Spring.

Independent Annual Audit:

Fourth Class cities are required to perform an independent annual audit. This is a necessary expense for every taxpayer in the city. In 2019, the Request for Proposal was bid out and our Independent Annual Audits will continue to be performed by Gerding, Korte and Chitwood.

Petitioned State Audit: Final Report / July 2019:

As stated in the Citizens Summary, New Bloomfield's rating was "Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, many of the prior recommendations have been implemented."

The audit was completed July 2019. On September 3, 2019, the city received an invoice from the State Auditor's office in the amount of \$27,963.78, stating "Payment is now due". Due to the immense burden of this expense, the City negotiated a Memorandum of Understanding payment agreement. All taxpayers will feel the weight of this audit for several years as payments are made on a quarterly basis.

Governance Fund:

Departments funded by City General are: Administration, Community Development, Municipal Court, Parks, Police / Public Safety and Streets. The most effective way to operate a monetary system is to look at 'money producing' financial measures, as well as 'cost cutting' measures. In 2015, the city population voted to adopt RSMo 115.124, "If the number of candidates who have filed for office is equal to the number of positions to be filled, no election shall be held and the candidates will assume the responsibilities in the same manner as if they had been elected." Taxpayers will save up to \$1,500.00 in election expenses in 2020 due to this provision.

In order to support the departments funded by the general fund, a 1% General Revenue Sales Tax measure was placed on the April 2, 2019 ballot to be voted on by the people; it did <u>not</u> pass. The city will look at placing the 1% General Revenue Sales Tax on the ballot in April 2021. A Use Tax may also be considered at that time.

If the Sales Tax increase had passed in 2019, these funds would have made it possible to look at other possible Public Safety / Policing opportunities and Community Development Issues, while adding extra support for our Parks and Streets. Not to mention, these dollars would have assisted with paying the cost of the State Audit. We will need to look at other revenue sources to increase funds in City General to support the departments funded by Governance Funds.

Enterprise Fund:

In order to continue to upgrade our water and sewer systems, the city needs to begin thinking about a new bond issue with hopeful Grant Funding, within the next 5-10 years under long-range planning.

General Administration:

The City Clerk is working diligently to update files and keep everything running smoothly. We will be bidding the Street / Related Stormwater Project in the Spring of 2020.

Community Development:

As our city grows, we must invest in updating our planning and mapping as well as updating our comprehensive plan. We will need to get our City Engineers involved in the process. In order to fund these endeavors, we placed a General Revenue Sales tax measure on the April 2, 2019 Ballot. Due to its non-passage, we will do as best we are able to continue updating these services. This Sales tax measure will most likely be placed on the ballot again in April 2021.

Court:

Understanding and complying with the new State regulations, we chose to move our Municipal Court to the Associate Circuit level. Our first Court date at the Callaway County Courthouse in Fulton was on September 8th, 2017. We no longer have the expenses related to the staffing, training, or supplies for a Court Clerk or Municipal Judge. However, we must retain the services of a Prosecuting Attorney. Once a month, the County Court Clerk's office sends us a check and we pay the law enforcement training fee (LET) to the State; the remainder is placed in the City General fund. We are required to permanently house and retain the records of the New Bloomfield Municipal Court from its inception to the final Court date of June 5th, 2017. This will be one of the ongoing costs to the City.

Parks:

Due to the fact that the 1% Sales Tax increase did <u>not</u> pass at the Polls in April 2019, the City sold a land asset to help make the payments for the State Audit. We will have to look to other funding sources to finance a Small Tots Play Area in the Park in the future.

Public Safety/Police:

Due to the desire to protect both our citizens and the safety of our Police officers, the City was blessed by the good will of a nearby community who offered in the middle of the year (2018) to help us with our policing needs. We were able to retain full time (24 hour) services under a contractual agreement that does exactly what we needed; protects both our citizens and our Police officers on a full-time basis. The current Full-Time Police coverage costs the City less than our previous Part-Time coverage. In order to continue to fund Public Safety and Policing measures, the City must increase funding for City General. One of the ways would have been to vote an increase on General Revenue Sales Tax. A measure was placed on the April 2, 2019 Ballot, but failed. This measure will most likely be placed on the ballot in April 2021. Fortunately, the City was able to continue the intergovernmental agreement for the next 5 years under a mutually beneficial contract.

Public Safety / Street Lights:

Our Street Light electricity fee has been slightly reduced. This is due to the new type of lights being installed by Ameren U.E. as the old lights burn out and are replaced.

Streets/Roads/Stormwater:

History: As early as January 2017, Steve Goehl addressed the Council concerning ways to look at a new measure(s) for Road and Street repairs and improvements as well as Stormwater issues. A suggestion was made to look at a Sales Tax measure at the same time planning for a Bond Issue. The passage of a Sales Tax would insure backup support for funding of the Bond Issue without an undo burden on homeowners. In April 2017, Stormwater concerns were addressed by the City requesting the City Engineer's input. In 2018, Allstate attended two Board of Aldermen meetings requesting input from the public. Afterwards, a preliminary plan was drawn up for a project. A Bond Issue was placed on the Ballot in 2019.

2019 Bond Issue / 2020 Street/Related Stormwater Project:

In order to attempt to stabilize our tax rate; stay on top of street repairs and upgrades as well as Stormwater issues, the city placed a Bond Issue on the Ballot in April 2019. This Bond Issue was successful with over 57% of the vote required to pass the measure. However, the General Revenue Sales Tax measure which would have provided backup funding for Street/Stormwater concerns did <u>not</u> pass in April, 2019.

In 2020, we will pay off the 2012 Street Bond Issue as well as bid out the \$680,000 Street/Related Stormwater project. The funding for the payoff of the 2012 Bond Issue will be paid from the remaining Street Bond Reserve Account (#13196) and Capital Improvement Sales Tax dollars.

Snow and Ice Removal:

After bidding in 2019, the Snow and Ice Removal contract was signed with Roettgen Excavating.

Solid Waste:

After bidding in 2019, the new Solid Waste removal contract was signed with Republic Services.

Water/Sewer:

Rates:

In 2017, a Public Hearing was held and the rates were approved. In August 2017, Ordinance #757-17 was passed as a 5-year plan for our rates.

Debt Service Reserve Account:

In 2018, we reached our goal of the \$46,560.00 required for the Debt Service Reserve Account by placing \$388.00 per month into this reserve account per the U.S.D.A requirement.

Replacement and Extension Fund:

Once the \$46,560.00 was reached in the Debt Service Reserve Account, \$388.00 per month is to be placed in the Replacement and Extension Account. This monthly payment must occur per the U.S.D.A. requirement until our Debt is paid off in 2042.

Water Reserve Funds:

We continue to save funds at \$1,000.00 a month to paint the Water Tower.

We continue to save funds for the replacement of a well to the tune of \$150.00 a month.

Sewer:

- Disinfection may be required with the 2020 permit. Estimated cost will be \$150,000.00.
- A second Clarifier will be needed at the Sewer Plant in the near future. Estimated cost will be \$80,000.00.

Goals:

With a goal to continue replacing old and worn out lines, we must begin looking at a new GRANT/BOND measure under a long-range plan.

Request for Information

The financial report is designed to provide our citizens, customers, investors and creditors with a general overview of the City's finances. If you have questions about this report or need any additional information, contact the City of New Bloomfield, Missouri, P.O. Box 77, New Bloomfield, Missouri 65063, call (573) 491-3614.

Fund Balance, end of year	\$	168,235

CITY OF NEW BLOOMFIELD, MISSOURI RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE GOVERNMENTAL FUND TO THE STATEMENT OF ACTIVITIES YEAR ENDED DECEMBER 31, 2019

Net change in fund balances - total governmental funds		
Amounts reported for governmental activities in the Statement of Activities are different because:	\$	66,826
Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets:	1	
Depreciation expense		(22,680)
Disposal of capital assets		(583)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds		(1,082)
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Bond principal payments paid Change in accrued interest payable from prior year		39,000 309
Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds: Accrued audit payable		(14,541)
Change in Net Position of Governmental Activities	\$	67,249

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. General Statement

The City of New Bloomfield, Missouri operates under a Council form of government and provides the following services as authorized by its charter: public safety, public works, culture, sewage and waterworks.

B. Basic Financial Statements – Government-Wide Statements

The City's basic financial statements include both government-wide (reporting the City as a whole) and fund financial statements (reporting the City's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. The City's general fund is classified as a governmental activity. The City's water, sewer, and trash services are classified as business-type activities.

In the government-wide Statement of Net Position, both the governmental and business-type activities columns (a) are presented on a consolidated basis by column, and (b) are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The City's net position is reported in three parts – net investment in capital assets; restricted net position; and unrestricted net position.

The government-wide Statement of Activities reports both the gross and net cost of each of the City's functions and business-type activities (police, public works, etc.). The functions are also supported by general government revenues (property, sales and franchise taxes). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function (police, public works, etc.) or a business-type activity. Amounts reported as program revenues include (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants.

The net costs (by function or business-type activity) are normally covered by general revenue (property sales or franchise taxes, interest income, etc.).

As a general rule, the effect of inter-fund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are direct costs and program revenues reported for the various functions concerned which would be distorted if eliminated.

This government-wide focus is more on the sustainability of the City as an entity and the change in the City's net position resulting from the current year's activities.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Basic Financial Statements – Fund Financial Statements

The financial transactions of the City are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, fund equity, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements. Major funds are reported as separate columns in the fund financial statements. Each individual fund of the City is considered to be a major fund.

The following fund types are used by the City:

Governmental Funds

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental fund of the City:

General Fund

The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

Proprietary Funds

The focus of proprietary funds measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the proprietary funds of the City:

Enterprise Funds

Enterprise funds are required to be used to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of the net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges or (c) establishes fees and charges based on a pricing policy designed to recover similar costs.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The City has three enterprise funds: water, sewer, and trash. The operating revenues of these funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

- 1. The *water fund* accounts for the billing and collection of charges for water service for most city residents. Revenues are used to pay for both operating expenses and capital expenditures to maintain these services.
- 2. The *sewer fund* is used to account for the provisions of sanitary sewer services to the residents of the city and a limited number of customers outside the city limits. All activities necessary to provide such services are accounted for in this fund.
- 3. The *trash fund* accounts for the provision of solid waste collection contracted to a third party. All activities necessary to provide such services are accounted for in this fund.

D. Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurement made regardless of the measurement focus applied.

Accrual

Both governmental and business-type activities in the government-wide financial statements and the proprietary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

Modified Accrual

The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

The revenues susceptible to accrual are property taxes, sales taxes, franchise taxes and interest income. All other governmental fund type revenues are recognized when received.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined as assets with an estimated useful life in excess of one year and an initial unit cost of \$5,000 or greater.

Capital assets for all fund types are recorded at cost or estimated historical cost where cost could not be determined from available records. Donated fixed assets are recorded at their estimated fair value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets' lives are expensed as incurred.

In accordance with the provisions of GASB 34, the City has elected to report infrastructure assets on a prospective basis only. Therefore, the infrastructure balance will represent additions from January 1, 2004 and thereafter.

Fixed assets are depreciated over their estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Buildings	25-50 years
Improvements	10-20 years
Equipment	5-10 years
Treatment plant, distribution and accessories	5-80 years
Other infrastructure	10-50 years

F. Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position.

G. Cash and Cash Equivalents

The City considers all highly liquid debt instruments and certificates of deposits purchased with a maturity of three months or less to be cash equivalents. Certificates of deposit with a maturity greater than three months are not considered cash equivalents.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

H. Fund Equity

Fund equity at the governmental fund financial reporting level is classified as "fund balance". Fund equity for all other reporting is classified as "net position".

Governmental Fund Balances

Generally, governmental fund balances represent the difference between the assets and liabilities under the current financial resources measurement focus of accounting. Governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in those resources can be spent. Fund balances are classified as follows:

- Nonspendable: Fund balances reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.
- Restricted: Fund balances are reported as restricted when there are limitations imposed
 on their use either through the enabling legislation adopted by the City or through
 external restrictions imposed by creditors, grantors or laws or regulations or other
 governments.
- Committed: Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by formal action of the City Council through the adoption of a resolution. Only the Board of Aldermen may modify or rescind the commitment.
- Assigned: Fund balances are reported as assigned when amounts are constrained by the City's intent to be used for specific purposes but are neither restricted nor committed.
- Unassigned: Fund balances are reported as unassigned when the balances do not meet any of the above criterion. The City reports positive unassigned fund balance only in the General Fund. Negative unassigned fund balances may be reported in all funds.

When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the City's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the City's policy to use funds in the following order: Committed, Assigned, then Unassigned.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Net Position

As noted previously, equity for government-wide and proprietary fund financial statements is classified as net position and displayed in three components.

- 1. Net investment in capital assets Consists of capital assets including restricted capital assets, net of accumulated depreciation, reduced by the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets, and increased by any unspent proceeds.
- 2. Restricted net position Consists of net position with constraints placed on the use either by (a) external groups, such as creditors, grantors, contributors, or laws or regulations of other governments; or (b) law through constitutional provision or enabling legislation. Net position is reported as restricted using the same definitions as used for restricted fund balance described in the section above.
- 3. Unrestricted net position All other net position that does not meet the definition of "restricted" or "net investment in capital assets".

The City applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net positions are available.

I. Compensated Absences

It is the City's policy to permit employees to accumulate earned but unused vacation pay benefits. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

At December 31, 2019, employees of the City had accumulated earned vacation and compensatory time aggregating \$10,517 of which –

- \$5,259 has been recorded in the government-wide, governmental activities, noncurrent liabilities
- \$5,258 has been recorded in the proprietary funds and government-wide, businesstype activities, noncurrent liabilities

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

J. Inter-Fund Receivables and Payable

Short-term amounts owed between funds are classified as "Due to/from other funds". See Note VI for details of interfund transactions, including receivables and payables at year-end.

K. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

L. Materials Inventory

Materials inventories of the enterprise funds are valued at historical cost when known, or at lower of current replacement costs or market value.

For the governmental funds, materials inventories are expensed when purchased.

M. Restricted Assets

Restricted assets include cash and investments of the proprietary fund that are legally restricted as to their use for revenue bond debt service. Governmental funds report restricted assets for cash deposited in bank accounts legally restricted for specific uses such as general obligation bond debt service, streets, capital improvement and law enforcement training.

N. Post Employment Benefits

COBRA Benefits - Under the Consolidated Omnibus Budget Reconciliation Act (COBRA), the City provides health care benefits to eligible former employees and eligible dependents. Certain requirements are outlined by the federal government for this coverage. The premium is paid in full by the insured on or before the month for the actual month covered. This program is offered for a duration of 18 months after the termination date. There is no associated cost to the City under this program.

O. Revenues, Expenditures, and Expenses

Operating Revenues and Expenses

Operating revenues and expenses for proprietary funds are those that result from providing services and producing and delivering goods and/or services. It also includes all revenue and expenses not related to capital and related financing, noncapital financing, or investing activities.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Expenditures/Expenses

In the government-wide financial statements, expenses are classified by function for both governmental and business-type activities.

In the fund financial statements, expenditures are classified as follows:

Governmental Funds - By Function

Proprietary Fund - By Operating and Nonoperating

In the fund financial statements, governmental funds report expenditures of financial resources. Proprietary funds report expenses relating to use of economic resources.

Interfund Transfers

Permanent reallocation of resources between funds of the reporting entity are classified as interfund transfers. For the purposes of the Statement of Activities, all interfund transfers between individual governmental funds have been eliminated.

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Deposits and Investment Laws and Regulations

In accordance with state law, all uninsured deposits of municipal funds in financial institutions must be secured with acceptable collateral valued at the lower of market or par. Acceptable collateral includes certain U.S. Government or Government Agency securities, certain State of Missouri or political subdivision debt obligations, or surety bonds. As required by 12 U.S.C.A., Section 1823(e), all financial institutions pledging collateral to the City must have a written collateral agreement approved by the board of directors or loan committee. As reflected in Note III-A, all deposits were fully insured or collateralized.

B. Budgets

The City adopts a budget as required by Missouri Statute. Expenditures in excess of budget must be approved by the Board. Actual expenditures exceeded final budgeted expenditures by \$3,658 in the general fund.

III. DETAIL NOTES ON TRANSACTION CLASSES/ACCOUNTS

Deposits and Investments

The City complies with various restrictions on deposits and investments which are imposed by state statutes as follows:

<u>Deposits</u> - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits.

<u>Investments</u> - The City may purchase any investments allowed by the State Treasurer. These include (1) obligations of the United States government or any agency or instrumentality thereof maturing and becoming payable not more than three years from the date of purchase, or (2) repurchase agreements maturing and becoming payable within ninety days secured by U. S. Treasury obligations or obligations of U. S. government agencies or instrumentalities of any maturity, as provided by law.

The deposits and investments held at December 31, 2019 are as follows:

	Maturities	Carr	ying Value
Deposits:			
Demand deposits		\$	466,216
Time deposits	01/03/20		58,584
Time deposits	05/08/20		28,592
Time deposits	06/03/20		29,964
Total deposits		\$	583,356
Reconciliation to Statement of Net	Position:		
Current Assets:			
Cash and cash equivalents		\$	317,043
Certificates of deposit			88,548
Restricted Assets:			
Cash and cash equivalents			149,173
Certificates of deposit			28,592
Total		\$	583,356
			·

Custodial credit risk. Deposits in financial institutions, reported as components of cash and investments had a bank balance of \$582,850 at December 31, 2019, which was fully insured by depository insurance or secured with collateral.

Investment interest rate risk. The City has no formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. Maturities of investments held at December 31, 2019, are provided in the previous schedule.

III. DETAIL NOTES ON TRANSACTION CLASSES/ACCOUNTS (continued)

Investment credit risk. The Board has given the Clerk the authority to invest idle funds of the City in low-risk investments such as United States government securities or collateralized certificates of deposit.

Concentration of investment credit risk. The City places no limit on the amount it may invest in any one issuer. At December 31, 2019, the City had no concentration of credit risk.

IV. ACCOUNTS RECEIVABLE

The following is a schedule of enterprise fund accounts receivable balances at December 31, 2019:

	 Water	Sewer		 Trash	Total		
Accounts Receivable	\$ 11,677	\$	11,180	\$ 5,133	\$	27,990	
Less Allowance for Uncollectible	_			 _			
Balance December 31, 2019	\$ 11,677	\$	11,180	\$ 5,133	\$	27,990	

The allowance amount is based upon management's estimate of uncollectible accounts.

V. TAX REVENUE AND TAXES RECEIVABLE

Property taxes for the current year were assessed and collected by Callaway County and subsequently remitted to the City. Property taxes are assessed as of January 1 each year for property located in the City and first billed (levied) the following October/November. Taxes not paid by December 31 are considered delinquent. The tax levy of the City is established by the Mayor and Board of Alderman around August of each year. The assessed value for property located in the City on which the fiscal year 2018 levy was based was \$6,806,522. The 2018 property tax assessment was budgeted for the 2019 fiscal year.

The City's property tax levies, per \$100 assessed valuation, are as follows:

	20	19 Levy	20	18 Levy
Fund	(dollars)	(dollars)
Debt Service	\$	0.6083	\$	0.6322
General		0.2960		0.3019
	\$	0.9043	\$	0.9341

V. TAX REVENUE AND TAXES RECEIVABLE (continued)

The following is a schedule of governmental fund property taxes receivable balances at December 31, 2019:

Property Taxes Receivable	\$ 60,690
Less Allowance for Uncollectible	-
	\$ 60,690

The receipts of current taxes for the year ended December 31, 2019, assessed in 2018, aggregate approximately 93% of the assessment computed on the basis of the total levy shown above.

The property taxes assessed in 2019 are shown as deferred inflows on the combined balance sheet because the City has budgeted to use these monies in fiscal year 2020.

The legal debt margin (the amount of general obligation bonds the City could issue with voter approval) at December 31, 2019 is computed as follows:

Total 2019 Assessed Valuation:		\$ 6,920,271	
Ordinary Debt (1)	10%		\$ 692,027
Additional Debt (2)	10%		692,027
Constitutional Debt Limit	20%		1,384,054
Less: Current G.O. Bonds			(122,000)
Available Debt Margin			\$ 1,262,054

- (1) Article VI, Section 26(b) and (c) of the Missouri Constitution provides, with a vote of four-sevenths qualified electors voting, a city may incur an indebtedness not to exceed in aggregate 10 percent of the value of taxable tangible property of the City, for any purposes authorized in the charter of the City or by any general law of the State of Missouri.
- (2) Article VI, Section 26(d) and (e) of the Missouri Constitution provides, with a vote of four-sevenths qualified electors voting, a city may become indebted an additional 10 percent of the value of taxable property of the City for the purpose of acquiring right of way; construction, extending and improving streets and/or sanitary or sewer systems; and purchasing or constructing water works, electric or other light plants, provided that the total general obligation indebtedness of the City does not exceed 20 percent of the value of the taxable tangible property of the City.

VI. INTERFUND BALANCES

Interfund balances for the year ended December 31, 2019, consisted of the following:

Due From Other Funds	Due To Other Funds		Amount
Water Family	C 1 F 1	Φ.	45,000
Water Fund	General Fund	•	45,000

This amount represents the amount the water fund loaned the general fund for purchase of a building.

VII. PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment and accumulated depreciation by major class at December 31, 2019 are as follows:

	В	eginning						Ending
Governmental-type activities:	Balance		Increases		Decreases		Balance

Sewer	 28,856
Total depreciation expense - business-type activities	\$ 89,349
Total depression on prince outsides type well these	 0,01,01,0

VIII. RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; workers compensation; and health care of its employees. All of these risks are covered through the purchase of commercial insurance. Settled claims have not exceeded the commercial coverage in any of the past three years. There are no significant reductions in coverage compared to the prior year.

IX. LITIGATION

The City may become involved in lawsuits arising in the ordinary course of business. Based on discussions with the City Attorney, management believes there is no outstanding matter which could have a material effect on the financial statements of the City.

X. RETIREMENT PLAN

Effective January 1, 2005 the City established a Simplified Employee Pension plan. Effective November, 2018 eligible participants must have served as full-time City employees for a period of five years.

The City contributes a maximum of 5% of the eligible employee's wages. Contributions made by the City totaled \$3,798 for the year ended December 31, 2019.

XI. LONG-TERM DEBT

On July 3, 2012 the City issued Series 2012 General Obligation Bonds in the amount of \$365,000 for the purpose of constructing and improving the streets and roads of the City, including related storm water drainage. The bonds are set to mature on March 1, 2022 and have rates varying between 1.625% and 2.9%. Annual payments required over the life of the bonds are as follows:

Year Ending						
December 31,	 Principal		nterest	Total		
2020	\$ 39,000	\$	2,973	\$	41,973	
2021	41,000		1,813		42,813	
2022	 42,000		609		42,609	
Total	\$ 122,000	\$	5,395	\$	127,395	

XI. LONG-TERM DEBT (continued)

Series 2006 Revenue Bonds

On July 11, 2007 the City issued Series 2006 A and B Combined Waterworks and Sewerage System Revenue bonds in the amount of \$790,200, which were issued to finance construction projects to the wastewater treatment facilities and infrastructure. The revenue bonds bear an interest rate of 4.25% and are scheduled for final maturity in 2042. These bonds are secured by future water and wastewater revenues. Annual payments required over the life of the bonds are as follows:

Year Ending					
December 31,]	Principal		Interest	 Total
2020	\$	19,093	\$	25,894	\$ 44,987
2021		19,921		25,067	44,988
2022		20,784		24,204	44,988
2023		21,685		23,303	44,988
2024		22,625		22,363	44,988
2025-2029		128,707		96,233	224,940
2030-2034		159,121	,121 65,819		224,940
2035-2039		186,372		28,405	214,777
2040-2042		39,662		1,082	40,744
Total	\$	617,970	\$	312,370	\$ 930,340

XII. CHANGES IN GENERAL LONG-TERM LIABILITIES

During the year ended December 31, 2019 the following changes occurred in liabilities reported in long-term debt:

		eginning Balance	Ad	lditions	Re	eductions		Ending Balance		e Within ne Year
Governmental Activities:	-		-							
General obligation bonds	\$	161,000	\$	-	\$	(39,000)	\$	122,000	\$	39,000
Compensated absences		5,490		2,655		(2,886)		5,259		-

XIII. CONTINGENT LIABILITIES

The City may receive federal grants and state funding for specific purposes that are subject to review and audit. These reviews and audits could lead to request for reimbursement or to withholding of future funding for expenditures disallowed for noncompliance with the terms of the grants and state funding. The federal granting agency will determine whether or not any expenditures will be disallowed. The City is not aware of any noncompliance with federal or state provisions that might require the City to provide reimbursement.

XIV. FUND BALANCE

Classifications of fund balances at December 31, 2019 are as follows:

	(General Fund		
Fund Balances:				
Nonspendable	\$	2,794		
Restricted		144,018		
Committed		-		
Assigned		-		
Unassigned		21,423		
	\$	168,235		

The City has not adopted a policy that sets forth a minimum fund balance amount.

XV. PLEDGED REVENUES

The Water, Sewer and General Funds have pledged future revenues, net of specified operating expenses, to repay general obligation and revenue bonds that were issued for water, sewer and street improvements. The bonds are payable from net revenues from the Water, Sewer and General Funds and are payable through 2042. Annual principal and interest payments in 2019 required 56%, 44% and 39% of net revenues of the Water, Sewer and General Funds, respectively. The total principal and interest remaining to be paid on the bonds is \$595,418 in the Water Fund, \$334,922 in the Sewer Fund and \$127,395 in the General Fund. Principal and interest paid on the water bonds in the current year was \$27,505 and net revenues in the Water Fund in the current year were \$49,015. Principal and interest paid on the sewer bonds in the current year was \$17,417 and net revenues in the Sewer Fund in the current year were \$39,302. Principal and interest paid on the general obligation bonds in the current year was \$43,001 and net revenues in the General Fund were \$110,127.

XVI. FINES

Fines and penalties revenue as shown on the Statement of Revenues, Expenditures, and Changes in Fund Balances is \$1,395 for the year ended December 31, 2019, which is 1% of general fund revenues.

XVII. CONSIDERATION OF SUBSEQUENT EVENTS

Subsequent events have been evaluated through April 8, 2020, which is the date the financial statements are available to be issued. In March 2020, the Board of Aldermen approved an ordinance to pay off the Series 2012 General Obligation Bonds and issue \$680,000 of Series 2020 General Obligation Bonds for street and storm water improvements. The transactions are expected to occur in fiscal year 2020. No other events requiring disclosure were identified as a result of this review.

COMPLIANCE AND INTERNAL CONTROL

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

PARTNER EMERITUS

Robert A. Gerding

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Governmental Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities and each major fund of the City of New Bloomfield, Missouri (the "City"), as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated April 8, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings and responses that we consider to be a significant deficiency (2019-001).

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance that is required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and responses (2019-002).

City's Responses to Findings

The City's response to the findings identified in our audit is described in the accompanying schedule of findings and responses. The City's responses were not subjected to the auditing procedures applied in the audit of financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CITY OF NEW BLOOMFIELD, MISSOURI SCHEDULE OF FINDINGS AND RESPONSES YEAR ENDED DECEMBER 31, 2019

2019-001 Accounting Personnel/Segregation of Duties

Criteria: Proper segregation of duties reduces the risk of errors and fraud and is an

important internal control.

Condition: It is recognized that the small number of accounting and clerical personnel

of the City precludes the application of internal accounting control

procedures possible in a larger organization.

Context: During our audit we reviewed City policies and procedures and

determined adequate segregation of duties did not exist.

Effect: A small number of employees perform several accounting duties.

Cause: The City does not have the financial resources to hire enough personnel to

segregate duties.

Recommendation: The City should segregate duties wherever possible and implement other

controls to compensate for the lack of segregation of duties.

View of Responsible Officials & Planned Corrective Action: As of this time it is cost prohibitive for the City of New Bloomfield to hire additional clerical staff. The City of New Bloomfield recognizes the importance of internal accounting control measures and makes every effort to maintain a checks/balance system. City ordinances and policy/procedures have been put in place so that financial records are

routinely reviewed by the Board of Aldermen.

In addition, the City of New Bloomfield retains an outside auditor for yearly independent audits and an outside independent consultant to assist the clerk

in reviewing monthly financial reports.

All account payable checks require two signatures, to include the City Clerk, Alderwomen Rosemary Augustine and/or Mayor Terry Shaw.

The City of New Bloomfield is taking all reasonable measures possible to reduce the risk of errors and fraud until such a time additional staff can be hired.

CITY OF NEW BLOOMFIELD, MISSOURI SCHEDULE OF FINDINGS AND RESPONSES (CONT'D) YEAR ENDED DECEMBER 31, 2019

2019-002 Budgeting

Criteria: State statute, Chapter 67, requires that each political subdivision is

prohibited from expending public monies unless those expenditures

have been authorized as provided in Chapter 67.

Condition: The City's actual expenditures in the General Fund exceeded final

budgeted expenditures by \$3,658.

Context: The final budgeted expenditures were compared to actual expenditures.

Actual expenditures exceeded budgeted expenditures in the General

Fund by \$3,658.

Effect: The City violated state statute RSMo 67.

Cause: The City budgeted too few expenditures in the General Fund.

Recommendation: The City should ensure actual expenditures do not exceed budgeted

expenditures in any funds.

View of Responsible

Officials & Planned Corrective Action:

The City of New Bloomfield recognizes the deficiencies found in the audit report and is taking measures to assure this does not happen again in the future.

One preventative measure the City of New Bloomfield can take will be approval from the Board of Aldermen to pass the final budget as the actual budget at the years end. This will assure that all expenditures and unforeseen expenses are accounted for and comply with the Missouri State Statutes.

The City of New Bloomfield will continue to monitor the budget and make amendments as needed throughout the fiscal year as it recognizes the budget is a fluid document, vulnerable to unforeseen expenses and revenues that original estimations did not account for.
